

Cooling Vest Grant

Cooling Vests will cost you A\$50 and the MSchievous Bunch will cover the rest.

The Arctic Heat Body Cooling Vest is a proven way of controlling body temperature which results in relief from the symptoms of various medical conditions.

The Arctic Heat Cooling Vest:

- Reduces skin temperature by up to 17 degrees Celsius while maintaining a stable core temperature.
- Delays the onset of dehydration by conserving fluid that would normally be lost through sweating.
- Lowers cardiac output towards the skin and allows more blood to be sent back to the muscles resulting in a prolonged high level of performance.

The vest is made using a completely non-toxic gel and the fabrics used will not agitate the skin and are latex free.

Criteria

1. Applications must be in by end of July 2016
2. Must have MS
3. Must not be eligible for any funding towards cooling vests
4. Must be prepared to pay A\$50 towards initial cost of vest
5. MSchievous Bunch will cover the rest of the funding
6. All successful applicants will need to pay their A\$50 contribution before orders can be placed.
7. Successful applications will be notified by end of August 2016

8. Money must be paid by mid September so that cooling vests can be received before the weather gets too hot.
